## **Yellow Box Junction on the Hayes Way Concord Roundabout**

We, the citizens of the Charlton and Cribbs ward, petition the South Gloucestershire Council to add a yellow box junction on the Hayes Way Concord roundabout towards Charlton Boulevard.

Currently, it takes over 30 minutes in the peak office hours to come out of the Charlton Boulevard, which is seriously impacting the residents' quality of life by increasing pollution, time to travel, and causing anxiety to children and adults equally. Lack of yellow box junction is further causing estimated loss of over 15,000<sup>1</sup> equivalent business days per year to the local economy, which can be invested in family time, businesses or recreation.

Therefore, I demand South Gloucestershire Council to implement this at the earliest.

<sup>1</sup> This part of the Charlton Hayes is home to over 1,000 working residents. Calculation is based on 1,000 working residents x 0.5 hours per business day x 20 days / month x 12 months = 15,000 business equivalent days per year. Please note due to new constructions, the number of residents are increasing every month.
